AT THE WHEN

State Fair Week

SEPTEMBER 15th to 20th.

The annual recurrence of the "State Fair" during the coming week offers favorable opportunity for a visit to Indianapolis. The railroads are making reduced rates, the fair management promise a large display and many attractions, including "Sousa's Famous Band." Our city is at its best in this season.

We tender our customers and the trade in this and adjoining States a most cordial welcome to visit us, proffering our store as headquarters, and our services, as well as those of our traveling salesmen, towards personal attention and entertainment.

Throughout all departments our stocks are complete and representative of the best lines of foreign and domestic manufacture. Better selection now and probably lower prices than

SALOONS HURT BUSINESS

FORCIBLE REMARKS OF THE REV. FRANK O. BALLARD.

A Movement in the First Ward to Remonstrate Against the Thirty-Five

Saloons There Located.

"An ass with sense enough to know a thistle from a toadstool would know that a saloon keeper gets much the best of the

bargain when he contributes to the income of the city." The Rev. . rank O. Ballard, who is known for his vigorous utterances on a multiplicity of subjects, had some things to say

about the liquor question last night at the Hillside-avenue Christian Church, Dr. Ballard was invited to be the principal speaker of a meeting of anti-saloon people of the First ward that was held in the church, a meeting that was a disappointment in the number of people that turned out. L. B. Lacey, head of the ward Anti-saloon League, presided and introduced Dr. Ballard. Outside of Dr. Ballard's speech there stitute here," said Rev. Sol C. Dickey, who

The sentence alluding to a wise donkey's selection of vegetable diet came after Dr. Ballard had gone into the saloon question thoroughly, showing that it was not only a moral and social evil, but that it was the worst kind of a business proposition. "We don't need to discuss the evils of the saloon," he said, "or to draw harrowing pictures; all that is necessary, it seems to me, is to show what a bad financial proposition the saloon is to everybody except the saloon man. The saloon damages every kind of business and business men. hurts the man that sells groceries, shoes, clothes or anything in the world other than drink. Usually the introduction of a new business into a community is hailed with delight; the saloon business is a marked exception. Nobody wants it. In this country every year \$1,000,000,000 is spent for drink with no good to anybody except the liquor dealers.

BURDENS OF TAXATION. "The business is largely responsible for bly will be reopened in the Stevenson Build-

the burdens of taxation that our people attribute to the saloon the most of the cost of maintaining ance of about ninety boys. courts and police departments. Judges themselves say that saloons are responsible for about 80 or 85 per cent. of the cases that come into court. The cost of jails, of insane asylums, of houses of refuge, of penitentiaries and of other public institutions is increased by the existence of saloons. We are a patient people, but we are a stupid lot. Railroad corporations, for instance, do not submit to the things that we as a people are willing to endure. Many of the biggest railroads won't tolposition, and other great businesses, like department stores, are taking the same at-

"The saloon keeper brags that he helps pay for the education of the children of nmunity in which he does business and that he pays a large share of the income of the city. [Here Mr. Ballard made the forceful remark about the ass.] As a matter of statittics, the saloon keeper takes in \$8 for every \$1 that he pays out. Suppose a burgiar made a practice of coming to my house every night and stealing my to my house every night and stealing my has been arranged to give the social at best clothes, my jewelry and other things the Abraham Lincoln School, Barth avethat I set store by. PRESIDENT ROOSEVELT PRAISED BY THE GERMAN EMPEROR,

Who Talked Pleasantly in Saying Good-Bye to Generals Corbin, Young and Wood.

AMERICANS MUCH

LAVISH IN THEIR PRAISE OF THE KAISER'S SOLDIERS.

Prince Henry May Visit United States Again-Waldersee Coming Next Year-General Foreign News.

BERLIN, Sept. 12.-Emperor William, in saying good-bye to Generals Corbin, Young and Wood to-day, remarked that he was specially interested in three Americans. He admired President Roosevelt unmeasuredly. He admired his versatility, courage, power for hard work and insight into the needs of his country. His Majesty added that he watched Mayor Seth Low's administration of New York because he thought it important to the commercial world that New York city should be well governed. The Emperor also said he was very sorry Andrew D. White, the United States ambassador, was leaving his court. He had the most cordial feeling for him personally because of the man he is and for his services in fostering good will between Germany and the United States.

General Corbin had an opportunity to present President Roosevelt's message about the St. Louis exposition and Emperor William said that he would see that Germany

to President Roosevelt through General themselves out to-night. There is a breeze the exception of about four houses and the Corbin and asked to be remembered espe- blowing, but it is sweeping across the field | beautiful church, has been swept to the cially to "Miss Alice," as he called Miss

The Emperor conversed with each of the Americans and told them how much he had enjoyed their visit. The farewell took place on the field just after Emperor William returned from leading the cavalry charge, which concluded the maneuvers. His Majesty had bivouacked again with the cavalry and had ridden with them thirty-two miles to-day in a wide detour, from a position in front of the right flank of the 'reds' (Russians), to their rear division. Nearly 10,000 horsemen left the camp at 4:50 o'clock and recall was sounded at 11:05 a. m. General Corbin, who rode down the line immediately afterwards, said he did not see a horse which was "blown out." He considered it to be a magnificent performance and did not believe any cavalry in the world could surpass it.

General Corbin and Earl Roberts both said, in summing up their impression of the maneuvers, that the German army is times the value of the cigars, but would smooth my feelings by the gift. That's the attitude of the people toward the saloon the most wonderful in the world. "There may possibly be a difference among mili-tary men," General Corbin said, "as to certain details, but the army altogether is

> What pleased the American general as much as anything was the spirit of the troops; the love of the privates for the army. The Americans had a notion that the rank and file had to be dragooned into the service, but instead of that being so they liked to serve and admired the army beyond any other institution in the country. The German soldier's love for the army was in itself a tremendous force. In speaking to General Young of the possibility of Prince Henry of Prussia's sec-ond visit to the United States, Emperor William said Prince Henry might go next April, when the statue of Frederick the presented by his Majesty to the States, is unveiled at Washington, although the prince's sea duties might prevent this.

gentleman. We were talking about the Field Marshal Count Von Waldersee told the Americans that he hoped next year to see them in the United States; he had been them. At the next Legislature they are intending to visit the countess's country going to repeal the Nicholson law and there | for some time, and he now believed he could say he had an opportunity to go, Count Von Waldersee, although seventyomnipotent. I think that it can be beaten seven years old, is still on the active list of the army. He was on horseback for hours every day during the maneuvers. The American officers left Berlin to-night. General Corbin, Lieutenant Colonel John A. Johnston, General Young and Lieuten-ant McKinley went to Dusseldorf. Thence diana high courts have come to our help A. they will go to Paris and from there to London. General Wood and Lieutenant McCoy have started for Dresden. Thence Whenever it comes to the point where they will travel in Austria.

GUESTS OF M. DELCASSE.

Attorney General Knox and General

Porter Entertained. PARIS, Sept. 12.-The foreign minister, M. Delcasse, gave a luncheon to-day in honor of Attorney General Knox and M. Payloff, the Russian minister to Korea. The guests included Gen. Horace Porter, the United States ambassador to France, and the entire staff of the embassy; Jules Cambon, recently French ambassador at Washington, the new French ambassador to Spain: General Bruegere, commanderin-chief of the French army; Countess Cassini, niece of the Russian ambassador at Washington, and the Russian charge d'affaires here, C. M. Narchkino.

If Citizens Will Raise All but \$25,000 The Campanile to Be Rebuilt. VENICE, Sept. 12 .- The cornerstone of the new Campanile will be laid April 22,

1963. All the debris will have been cleared off a month hence. At present the courtyard of the Doge's Palace is entirely occupled by fragments of the collapsed tower. fragments of statues and bas reliefs saved from the ruins. Some of them will be employed in rebuilding the Campanile, while was nothing of interest about the meeting. arrived in the city last night. Mr. Dickey the others are destined for a museum which is to be established in the Loggia

The Venetians are much gratified at the contributions which have been received from the United States and which are promised from that country. The subscriptions from all sources aggregate \$295,-000. The rebuilding of the Campanile, it is estimated, will cost \$500,000.

W . W. Astor Loses a Daughter. LONDON, Sept. 12.-William Waldorf Astor's daughter Gwendolin, aged nine years,

died of consumption this morning at Cliveden. Her body will be taken to New York NEW YORK, Sept. 12.-The fact that named Gwendolin was a surprise to many of his acquaintances in this country. Gwendolin was born abroad, shortly before | compelled to use a searchlight at 11 a. m., Mrs. Astor's death. Mrs. Astor's body was and the Portland & Oriental liner was unbrought to this country and interred in Trinity Cemetery, which probably will be the resting place of her daughter. William Waldorf Astor has three surviving children-Waldorf, Pauline and John J. Pauline Astor generally has been referred to as

W. W. Astor's only daughter. Cable Notes.

Rumors that Prince William, of Luxemburg, has met with an accident, or suffered a stroke of paralysis, has created uneasiness, as he is the only son of the grand duke and has no male heir.

commander, arrived in Berlin recently to be treated by Prof. Bergman for a gunshot wound. It was erroneously printed that General De Wet himself had a bullet removed from his body. Frank Holmes, of Birmingham, started

from Dover at half-past 6 o'clock yesterday morning, in an attempt to swim the English channel, but abandoned his attempt after being in the water two hours. He was caught in a squall. The official Gazette of St. Petersburg vesterday published a rescript from the Czar, according to the desire of Baron De

Staal to retire from the Russian ambas-sadorship in London, on the ground of im-

paired health, and appointing him a mem-ber of the Council of the empire. At the old Bailey, London, yesterday the jury announced that it found no evidence against Prince Francis Joseph of

Braganza, an officer of the Austrian army,

charged with "misconduct under the criminal law amendment." The prince was thereupon discharged from custody. At a meeting of the Dublin Corporation yesterday, called to deal with the action of the government in proclaiming Dublin under the crimes act, a resolution was adopted protesting against the outrage and insult offered to the citizens of Dublin, in proclaiming the city in which, in proportion to the size of its population, there was less crime than in any other city in the

The lawyers of Princess Rospigliosi, who was Miss Marie Reid, of Washington, D. C., and formerly the wife of Frederick Parkhurst, of Bangor, Me., have requested the Vatican Propaganda to have the original registers of St. Matthew's Church, Washington, and the chancellory of Baltimore brought to Rome in order to support her contention that no church dispensation for her marriage to Mr. Parkhurst was granted.

There has been a marked improvement in King Edward's health since the coronation, says a London dispatch. His diet is strictly regulated in quantity and character. Those who have seen and talked with him in Scotland assert that he is in better health than for many years and that his vivacity and cheerfulness are noticeable. His June illness is now regarded by many as a blessing in disguise, which may help to prolong his life for many years.

DESTRUCTIVE FIRE CAUSED BY A MAN AND A LANTERN.

Much Oil Property Burned, Including Derricks, Tanks and Pumping Plants-Forest Fires.

BEAUMONT, Tex., Sept. 12 .- At daylight this morning the fire in the oil field burned itself out and to-night there are only four had a good representation. "I will send as the fire is principally fed by gas. The In Carbet the ashes lie one foot deep and oil is being drawn from the tanks as rapid- nearly the same amount covers the ruins His Majesty sent some personal messages | ly as possible and they will probably burn of St. Pierre. All of Morne Rouge, with and toward the fire. Even if it changes for the reason that all the loose oil has

The loss caused by the fire is variously estimated. The lowest figures by those competent to judge places the total loss at about \$75,000. From this it ranges up to \$250,000. So far as can be ascertained about thirty derricks were destroyed. The loss on these was comparatively small. Fifteen tanks, some of them filled with oll, were burned. Several pumping plants were put out of service.

The fire was started by the carelessness of a workman, whose name has not yet been ascertained. He went into a tank, which was partly filled with oil, with a lighted lantern and there was an explosion of gas which ignited the oil. The man escaped, though he is said to have been badly burned. The Wood gusher had been left open and it was ignited within a few minutes. Before an alarm could be given to control the burning tank, the flame leaped high in the air, the derrick caught fire and so did the oil which was standing around the well. The ignition was comparatively slow, but the fire, once started, spread rapidly over the Keith-Ward tract, which is on the outer edge of the field. Immense volumes of smoke were created and gave the impression that the area of the fire was much greater than it really was. The flames shot up through the smoke, forked and jagged like lightning in some instances, and in great sheets in other por-tions of the field. The ground was thoroughly soaked with oil and until this had been burned off the smoke obscured everything, even creating a fog-like effect in the city, four miles away. There was very little wind and this contributed to the safety of the rest of the field.

DISASTROUS FOREST FIRES.

Millions of Feet of Timber Destroyed and Several Lives Lost.

PORTLAND, Ore., Sept. 12.-Forest fires are burning over the Cascade and Coast ranges from British Columbia to the California line, destroying millions of feet of timber, many farmhouses, barns and much live stock. Two persons are known to have lost their lives, others are missing and scores are hurrying to places of safety. At Bridal Veil, Ore., to-day the Palmer sawmill and the Brewer mill were burned. Elsie Palmer, proprietor of the Palmer mill, was burned to death, and a man named Trickey is missing. About forty mill hands are in danger of being surrounded by fire. On Mill Plain, near Vancouver, eight farmhouses were destroyed to-day and

Word cannot be received from Elma or Aberdeen, the wires to those points being down. It is known, however, that s : large lumber mills and ten houses have been burned six miles south of Elma. Many similar reports are being received from Washington points. At Ducora, forty-five miles south of Ta-

coma, the town was in total darkness at Many people refused to believe that the phenomenon was from forest fires and congregated on street corners, predicting dire disaster. At Centralia darkness caused all business to stop. The last report from Shelton, at noon, was to the effect that nearly all of the

mills in Mason county were on fire. The town of Mitlock, that county, was in imminent danger when last heard from, and the timber 100 feet highe was burning. Sixteen miles from Olympia the Bordeaux string of camps in the Black hill district are in great danger. Forty men on horseback have gone to rescue women and chil-

In Tacoma a heavy darkness settled down. Boats could not pass the narrows on account of darkness, and at Olympia the electric light plant shut down and at noon it was as black as night.

Effect of Smoke from Forest Fires. ASTORIA, Ore., Sept. 12.-Smoke from the forest fires backed up from the coast in a solid bank and caused an unusual phenomenon here, the setting sun turning the sky a yellowish green. Business throughout the city generally was suspended and every-William Waldorf Astor had a daughter where lights were turned on. The girls employed in a packing house ceased work to pray. A steamer on the Columbia was

> able to leave on her trip. Other Fires.

BRIDGETON, N. J., Sept. 12.-The large factory of the East Lake Woolen Mills ompany, of which J. Edward Addicks, of Delaware, is the head, was destroyed by fire to-day, entailing a loss of \$100,000. Two hundred men and women are rendered idle. The plant was recently improved by the addition of modern machinery, which was desroyed.

CINCINNATI, Sept. 12.-Fire early this morning, starting from an unknown cause in the Enterprise Lumber Company's yards fuel on the American line steamer Kensing- at Shillito street and the Cincinnati, Lebanon & Northern Railway, caused a loss of \$50,000, including eight cars belonging to the Pennsylvania Railway Company. Marmet's coal yards were also damaged.

BALTIMORE, Sept. 12.-Spontaneous combustion was responsible for a fire in the plant of the Hubbard Fertilizing Company at Canton to-night, which caused a loss of \$100,000. The building of the company, occupying a block on the water front, was almost entirely destroyed. SAN ANGELO, Tex., Sept. 12.-Fire at Sonora, Culton county, early to-day destroyed an entire business block with an

estimated loss of \$100,000. Several citizens

PRENTICE, Wis., Sept. 12.-Fire here

early to-day burned out one whole business

block and part of another. Total loss,

were slightly injured in fighting the flames.

RECENT ERUPTIONS DESCRIBED BY PROF. ANGELO HEILPRIN.

Area of Destruction Far Greater Than that of May 8, When St. Pierre Was Overwhelmed.

PHENOMENA WERE THE SAME

VICTIMS OF THE LATEST OUTBURST BURNED AND SUFFOCATED.

Ashes Fell in Clouds and the Electrical Illuminations Were Wonderful-Much Uneasiness.

FORT DE FRANCE, Island of Martinique, Sept. 6 .- Prof. Angelo Heilprin, president of the Philadelphia Geographical Society, who is in Martinique in the interests of the National Geographical Society, has made the following report of the recent eruptions of Mont Pelee:

"The scene of destruction in the last eruption of Mont Pelee far surpasses in extent that of the eruption of May 8, when St. Pierre was destroyed, and includes the broad area lying between Macouba and Carbet and involves Haute Tours de Bourdon, Basse Pointe, Morne Balai and Ajoupa Bouillon, where alone upwards of 300 persons were killed, as well as Morne Rouge, with a death list of probably not less than 1,100 persons. Morne Capot and the heights somewhat this side of Fonds wells and two tanks burning. One of the St. Denis, the blast, however, leaving the wells is a big gusher and there will be much | last-named place untouched. Great cinders trouble experienced in extinguishing it. fell also over the region of Grand Riviere The smaller wells can be easily handled, and Precheur is covered deep with ashes. ground and the greater part of the town there will be little danger of further loss has been burned up. At Ajoupa Bouillon, where one-half of the town has been prostrated, there is no trace of fire of any kind.

> "The destructive blast, instead of confining itself to a section or area, as was the case during the first eruption, was distributed radially, crossing the low summit of the volcano near the knob of Morne Jacob and skipping zones between its rays. The danger from Mont Pelee is thus materially increased and perhaps no position in the north of the island is absolutely safe. The government has judiciously or- this year and it is believed that last year's dered the evacuation of all points reached by a radius of about eight or ten miles

from the crater. The recent phenomena were precisely like those of May, death resulting in most cases from contact with the terribly swift and hot blast, which burned and suffocated. The sulphur emitted from the crater during the recent eruptions was comparatively insignificant, although it densely permeated the ash cloud which fell over Precheur. The electrical illuminations during the storm were wonderful, and greatly surpassed those of July 9. There was no barometric disturbance to indicate a coming

"During the time I was on the volcano on the afternoon of the eruption Mont Pelee was in terrible activity, and refuge from flying bombs had to be sought in a hole. The great cone could not be seen. On the way down the mountain the party was erveloped in ashes and mud, the center of the ash and steam clouds being almost vertically over us. The destruction of the several towns and localities was simultaneous, occuring at 9:10 in the evening. There is much uneasiness all over the island of Martinique and this is intensified by the knowledge that La Souffriere, on the island of St. Vincent, is again in full

Vincent as seen from here the night of Wednesday was most terrifying, and on Thursday morning the ash cloud from the st. Vincent volcano carried darkness to Fort de France for a period of nearly six hours. No details of the casualties on St. Vincent have as yet been received here."

Walter Harvey, Sixteenth Infantry, for three months.

Gen. Miles at Fort Wayne.

Special to the Indianapolis Journal

FORT WAYNE, Ind., Sept. 12.-Lieutenant General Miles, of the United States army, en route to the Philippines, passed through the city this morning in a special car over the Pennsylvania road. To reporters of the papers, whom he greeted kindly, he declined to say anything concerning his mission. Ex-Lieutenant Governor Robertson, of Fort Wayne, served as colonel on the staff of General Miles during the war of the rebellion, and Capt. F. H. Whitney, of the police force, was with him in a Massachusetts regiment, and the general voluntarily mentioned the fact and spoke kindly in remembrance of both men.

BETWEEN CONTESTS FRESHMEN AND SOPHOMORES.

List of New Professors at the University-General News of the Schools of the State.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Sept. 12.-Although the freshmen a few nights ago succeeded in painting their class numerals, "'06," on the historic water tank north of the university, the figures no longer are to be seen. Last night seventy-five sophomores, with hundred more of their class in reserve, marched to the tank, scaled the seventy foot wall, painted out the new figures and replaced "'05" on the surface. There was no resistance, as the freshmen were not aware that their numerals were being desecrated, but trouble is inevitable within a few days or all old college traditions are forgotten, for it is an established custom for the two lower classes to battle for supremacy on the hillside that flanks the huge black reservoir.

Last year the fight was the fiercest in the history of the university and there were several seriously injured. Both classes have many strong men and good leaders struggle will be overshadowed by the con- THE WONDER OF THE AGE test that is to come.

Classes were organized at the university yesterday, and work in all departments is well under way to-day. The new professors and students are becoming acquainted, and it is thought this year's faculty is stronger than ever. The new men among the corps of instructors include Prof. John McCall, of Tennessee, a Cornell graduate, succeeding Charles H. Robertson in the mechanical engineering department; Professor Ernest, succeeding Prof. William Forsythe, in engineering department; E. J. Termier succeeds Prof. James Hoffman in practical mechanics, the latter being transferred to engineering work; Ernest L. Smith, Purdue, '01, instructor in machine design; C. M. Gould succeeds Prof. Karl Krause, German department; Edward L. Hancock, University of Wisconsin, be-comes instructor in Mathematics; C. H. Beckett, Cornell, instructor mathematics. Charles I. Freeman, ex-manager of the Athletic Association, returned to-day from Chautauqua, N. Y., and will continue his duties as director of physical culture.

EN ROUTE TO COLOMBIA TO PROTECT

Battleship Wisconsin Has Sailed from

AMERICAN INTERESTS.

WASHINGTON, Sept. 12 .- By noon today the Navy Department had been advised that the two warships ordered to the scene of trouble on the Isthmus of Panama had sailed for their destinations. A telegram was received from Rear Admiral Casey, commanding the Pacific station, stating that the big battleship Wisconsin left Bremerton to-day and after taking on coal at San Francisco will resume her long voyage down the Pacific coast. With the same promptness which characterized his prompt hurrying to the scene of the terrible disaster at Martinique, Commander T. C. McLean, of the Cincinnati, had started for Colon within a few hours after the receipt of the Navy Department's orders

As a further indication that the vigorous efforts of the Navy Department to relieve the situation on the isthmus are none too early, the following cablegram was received from Commander Potter, of the Ranger, who, with the small gunboat, the Ranger, has for the present the entire situation to look after: "Panama (received) cipher message this morning (saying) revolutionists near railroad. Situation serious, Transit across isthmus still open." The cablegram was not dated. The Navy Department also received a dispatch from

In view of the reports that political significance attaches to this latest dispatch of naval force to the Isthmus of Panama, a statement was gained to-day from a high and unquestionably official source to the effect that the protection of American interests and the enforcement of treaty guarantees are the only two considerations involved in the sending of additional warships to Panama and Colon. It was pointed out that peculiar circumstances made necessary the dispatch of a force more formidable than the occasion really warrants. The Ranger at Paname had a complement of only 113 men. There was no other vessel available on the Pacific coast, save the big battleship Wisconsin, so that, while it was like sending a man to perform a boy's work, the department had no alternative. Moreover, it is learned that the department has decided not to send the Panther with the battalion of marines to the isthmus unless Commander McLean, on the arrival of the Cincinnati at Colon, informs the department that the men are needed. In the meantime the battalion will

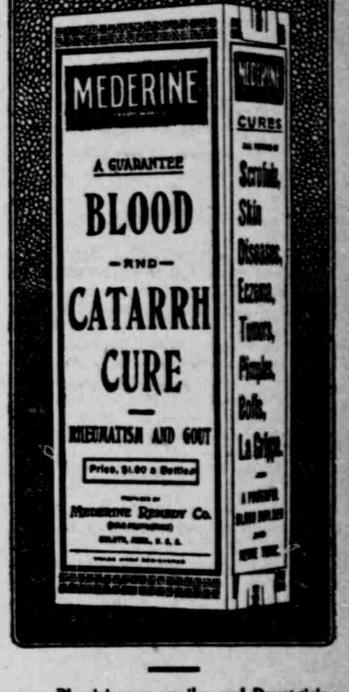

Rear Admiral Casey, commander-in-chief of the Pacific station, will go down to Pansonal command of the naval forces upon

It is time you were doing something. The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble. The "Omega" **Odorless Gas Stove**

Marks a revolution in gas heating and household sanitation. Perfect combustion is secured by the generation of intense heat and the thorough mixing progressively of the gas supply with air, by which it is possible to use at least forty-five cubic feet of air to every cubic foot of gas.

Its operation combines three important and indispensable factors—economy in fuel, perfect combustion, sterilization. In the "OMEGA" they are the result of mechanical combinations produced as the result of extensive scientific research. On exhibition and for sale by
